Please explain why you want to be appointed to the City Council:

Volunteerism has been instilled in me since I was a youth. My mother always encouraged my siblings and me to make whatever contributions we were able to improve the quality of life within the community we each reside. I want to play an active role and work as part of the team that improves the quality of life for all in our community.

I believe that my 30 years of public and private sector engineering experience; my years as a School Board member; my active involvement in the community over the past 10 years; and my experience serving and chairing a Planning Commission in another community have provided me significant experiences to assist the governance team in developing policies that will guide the City for decades.

My life experiences have enabled me to understand the difference between being a policy maker and staff.

I have a proven track record of not being afraid of taking difficult positions, while supporting the team's final decision. I have also demonstrated my willingness to voice my opinion and support difficult and challenging decisions made by both the Council and staff.

My knowledge of the City's budgetary process, General Plan, Zoning Ordinances and the City as a whole, will enable me to hit the ground running and to be an active participant in the policymaking process. As a boat owner and member of Spinnaker Yacht Club, I understand the difficult decisions facing the Council regarding the operations of the marina. I believe I could be a bridge to the boating community as we look at our financial obligations for the future of the marina area.

My wife, Kat, and I are committed to our community. We have invested in our own home in the Marina Faire neighborhood and plan to live here and be active participants in our community for a long time.

Please list any previous City of San Leandro Board, Commission, or Committee on which you have served, as well as any community organizations to which you belong or have belonged:
