

RALLY TO BRING OUR TROOPS Home FROM IRAQ

We deeply respect the sacrifices of our troops in Iraq and mourn for those that have died as well as the Iraqi civilians killed in the civil war. Please bring homemade signs and voice your opposition to further escalation by President Bush.

Speakers include San Leandro Mayor Tony Santos, Council member Surlene Grant, Alameda County Supervisor Alice Lai-Bitker and noted writer, theologian and activist Byron Williams. Donations to the Brain Injury Resource Foundation will be gladly accepted.*

“We must continue to raise our voices if our nation persists in its perverse ways in Vietnam. We must be prepared to match actions with words by seeking out every creative means of protest possible.”

* Traumatic brain injury (TBI) has been called the signature wound of the Iraqi war. “As thousands of brain-injured veterans come home to recover medical experts have expressed concern about providing them with continuing care and support, especially because TBI can predispose them to falling through the cracks of the health care system.”
